UAUT new and returning students!

Welcome to The United African University of Tanzania!

This is Professor Sung Soo Kim. It has been a humbling privilege and honor to be appointed as the new UAUT Vice-Chancellor (VC) in January of this year. After serving as a Professor and President at universities in Korea and the United States of America for many years, I have now obeyed God's calling to serve at UAUT.

In the recent months, UAUT has been experiencing several changes. Above all, the owner and the foundation that is responsible for managing this university has been changed. Consequently, a new Chancellor and a new VC have also been appointed. The university officials will be reorganized, and faculty and staff will also be recruited and expanded in the coming days.

Through hard work and dedication, Missionary Jin Sup Lee, the founder of this university, laid down a strong foundation from the beginning. Based on the founder's devotion, UAUT will now take a new leap forward. To this end, UAUT is committed to being a Christian university with substance both in name and reality. We will focus all of the university's capabilities on supporting our students to be trained in the knowledge and skills of their major fields. We will also direct our efforts in making our university a place where students are well trained and enabled to find good employment after graduation. We plan to actively open opportunities for career path by cooperating with various companies in Korea. At the same time, we will do our best to enrich your campus experience by drastically improving dormitory facilities and student welfare facilities so that you can have a satisfying and rewarding campus life.

The future that is open to us is always filled with both uncertainty and possibility. Now, I hope and pray that we all will be able to welcome and respond to the 2024/2025 academic year with an active readiness for challenges and possibilities rather than shrinking from anxiety.

May our Lord bless you all and enable you to have a fruitful semester. As Vice-Chancellor, I will pray for your future and commit to supporting you. For the King! Pro Rege!

Prof. Sung Soo Kim

Vice-Chancellor

- (vi) Candidates must write their registration numbers and degree programmes on the cover page of the answer book before they start to write the examination.
- (vii) Food, drinks (except where water is permitted-see below), cigarettes, laptops, recording or playback devices, and other electronic communication devices such as a cell or smart phones, bags, purses, hats, books attached cases, papers and other related items are not permitted in the examination room. The University assumes no responsibility for personal property lost in or near any examination room.
- (viii) Students with approved health conditions may bring (transparent) bottled water into the examination room. Such students will have to be seated away from other students to avoid accidental spillage.
- (ix) Invigilators* should admit candidates to the examination room ten minutes before the commencement of the examination and they should ensure that they take the right places. Where big numbers of candidates are involved, invigilators may admit candidates to the examination room fifteen minutes in advance.

*Invigilators are requested to stick to this arrangement. During these ten minutes the invigilator should:

- a) Make an announcement to the effect that unauthorized materials are not allowed in the examination room;
- b) Make an announcement to the effect that candidates should satisfy themselves that they are in possession of the correct paper;
- c) Call attention to any rubric at the head of the paper which seems to require attention;
- d) Announce that, where this is practicable, both sides of the paper must be used. He/she should then tell students when they may begin

writing. Candidates will normally be allowed a maximum of ten minutes to read the paper.

- (x) It is mandatory for all students sitting examinations to be in possession of a valid Student ID card, which is to be placed on the top right-hand corner of the desk throughout the examination for Invigilators to check. Students without their ID card shall not be permitted entry to the examination room, and shall be directed to the ID Office to obtain a valid ID card.
- (xi) Invigilators should not admit candidates to the examination room after half an hour from the commencement of the examination and should not permit them to leave the room until thirty minutes have expired.

B: DURING THE EXAMINATION

- (i) At the commencement of the examination, invigilators should remind candidates to ensure that they are attempting the right examination paper.
- (ii) At the end of the first half hour the total numbers present should be noted down.
- (iii) Invigilators should then collect the blank answer-books from all vacant places. Spare question papers should be returned to the correct envelopes for collection by the Internal Examiner. It is at this time that candidates should start to sign the examination attendance sheet. During the exercise, invigilators should also make sure that the photo on the candidate's ID card matches the candidate's face and that the registration number on the ID card is the same as the one written on the answer book.
- (iv) Invigilators should minimize announcements during the examination.
- (v) An invigilator shall not allow candidates to borrow or exchange items such as rulers, pens, pencils and calculators during the examination.
- (vi) During the examination, invigilators should ensure that candidates are provided with any additional requirements (e.g. scripts, blotting-paper, log-tables etc.). All rough work must be done in the Answer Book and crossed through.
- (vii) No candidate should be permitted to leave his/her place during the examination except to leave the examination room.
- (viii) A candidate may, with the permission of the Invigilator, leave the examination room briefly only if accompanied by an assigned assistant Invigilator. Candidates will not be readmitted to the examination room after they have left the examination room unless, during the full period of their absence, they have been under approved supervision.
- (ix) Permission to leave the examination room shall be granted in exceptional circumstances as invigilators are expected to remind candidates to go for short calls before they enter the examination room.

- (x) A candidate who contravenes the regulations and instructions governing the examinations, especially by unfair practices such as copying from or communicating with other candidates shall be reported immediately to the Examinations Officer.
- (xi) Once a student is found with unauthorized materials, the invigilator should ask the student to sign on the materials to confirm that they are his/hers. PROVIDED that where a candidate/student refuses to sign on the material, the examination officer shall request another invigilator to witness and countersign stating the candidate has refused to sign the material.
- (xii) The candidate shall be informed that he/she has contravened the regulations and that he/she has been reported, but shall not be prevented from continuing with his/her paper. A written report must be sent to the Examinations Officer, including full details of the contravention. The Examinations Officer shall then forward the matter to DVC (ARC). It is part of the invigilator's duty to move about the examination room as quietly as possible at frequent intervals.
- (xiii) Invigilators shall have the power to confiscate any unauthorized book, manuscript or other aid brought into the examination room and to expel from the examination room any candidate who creates a disturbance. They shall report to the Examinations Officer any case of a candidate suspected of giving or obtaining unauthorized assistance or of attempting to do so, and that officer shall have power to take any further steps he/she may consider necessary. He/she shall then report the matter to the DVC in charge of academics.
- (xiv) Cases of illness during examination should be reported to the Examinations Officers as soon as possible for assistance.

C: AT THE END OF THE EXAMINATION

- (i) Invigilators shall not permit candidates to leave their places before their scripts have been collected. Candidates who wish to leave the examination room before the end of the examination shall hand over their scripts to the invigilator before leaving the examination room. At ten minutes before the conclusion of the examination period, the Invigilator shall announce the time remaining. Candidates may not leave their seats in the examination room after this time (except in case of emergency) until all papers have been collected. At the end of the examination period invigilators shall instruct the candidates to stop writing and then collect all the scripts.
- (ii) Invigilators shall enter the number of examination scripts collected from the candidates on the attendance sheet provided by the Examination Officer at the time of collecting the examination papers. Invigilators shall sign the said attendance sheet before they hand over all the scripts to the Examinations Officer at the end of the examination. On receipt of the scripts, Examinations Officer will check them and let the Invigilators countersign on

the examinations pickup/collection form. The attendance sheets must be handed to the Examinations Officer at the end of each session.

- (iii) Invigilators shall hand over all extra examination papers and answer books to the Examinations Officer.

5.20 General Notes and Instructions

(i) Internal Examiners (or their deputies) are required to attend in the examination rooms at the commencement of each period to assist the invigilators and to collect the scripts. Instructions, which the examiners (or their deputies) may wish to be given, should be announced by the invigilators. (ii) The Use of Calculators in Examinations:

- 1 Any calculator permitted to be taken into an examination must be hand-held, self-powered and noiseless. It must not make use of an audible alarm or facilities for 'wireless' transmission or reception of information.
- 2 For examinations with College approved (standard) calculators, the examination invigilator will ensure that only the specified calculator is used for the examination; otherwise the instructors are responsible for ensuring that only the calculators they have specified are brought into the examination room.
- 3 If a range of calculators is allowed in a test or examination, consideration be given to ensuring fairness by setting a test or examination which takes into account the differing capabilities of the calculators.

- (ii) "Examinations Officer" includes the Examination Officer's deputies.
